Duel Duo

Test Case: Duel

Description

Tests the functionality of the 'Duel' Button.

Steps

1. Navigate to game's main page.
2. Click the 'Draw' Button
3. Click the 'Add to Duo' Button on Two Bots
4. Click the 'Duel' Button

Expected Results

1. The two selected bots are visible as 'Your Duo'
2. Two bots selected by the computer are visible as 'Computer Duo'
3. The winner is calculated by adding the robot's total health and attack damage and then subtracting the other robot's attack damage from the defender's health.
4. 'You Won!' is displayed if you win || Else 'You lost' is displayed.
5. If you won, the score is updated, adding 1 to Wins || Else if lost, adding 1 to Losses
6. The 'Play Again' Button is visible
